

Our Mission

To educate, empower, and protect through stories and discussions. We educate parents and children on how to keep themselves and their families safe. We will provide the keys to unlock their mental defense and to have a mental preparedness on how to stay safe. We want to keep America safe one story at a time.

Our Goals

To publish books that have simple and fun lessons that let parents and children imagine examples that would fit into their life. Encourage parents and children to express how they would react in a threatening situation, and discuss the simple things they could do to be safer.

How you can help:

Be committed to a continued effort to teach your children about safety.

Stay up to date on the latest trends appropriate to your child's age group.

Keep yourself educated on how to reach your children.

Speak openly with your children do not wait until something happens to your family or in your community to make safety a priority.

Incorporate the lessons and stories into your daily lives, practice "what if" scenarios.

Be repetitive in your message to your children.
